SUMMARY

AI undergraduate (BS Artificial Intelligence, CGPA 3.61/4.0) with hands-on experience building responsive websites and delivering end-to-end design for digital campaigns and events. Built an AI/ML Gender Recognition (voice) model in Python (scikit-learn) achieving 94% accuracy, and led a 10+ person volunteer design team at Digital Empowerment Network, managing reviews, task assignment, and timelines for cross-platform assets.

EXPERIENCE

Head of Design Team (Volunteer)

Digital Empowerment Network

Jan 2023 - Jan 2025

Promoted from Junior Graphic Designer to Head of Design Team; lead and coordinate a 10+ designer team remotely, including task assignment, reviews, and timeline management to meet deadlines. Led a Social Media Campaign by creating reusable templates for a series featuring successful entrepreneurs worldwide, enabling consistent branding and faster delivery across posts. Designed cross-platform social media content (LinkedIn, Instagram, Facebook), maintaining consistent aesthetics and brand standards across campaigns. Produced event branding collateral including logos (ZABTechFusion, ZABCon), speaker/participant certificates, and cohesive social media post sets aligned to event identity.

Graphic Designer

Microsoft Learn Student Ambassador

Jan 2023 - Jan 2024

Created event branding assets including logos (ZABTechFusion, ZABCon) and coordinated design deliverables for event management needs. Designed certificates for speakers, participants, and event team members, ensuring consistent visual identity across materials. Developed a consistent social media design system for event promotion, adapting the same aesthetics across multiple platforms.

Python Programming Intern

Digital Empowerment Network, Remote

Jul 2024 - Aug 2024

- Developed Python scripts to automate data processing tasks, increasing efficiency.
- Utilized version control systems to manage code changes and collaborate effectively.
- Participated in code reviews, contributing to improved code quality and standards.

EDUCATION

Bachelors in Artificial Intelligence

SZABIST ISB, Islamabad

Feb 2023 - Current

Intermediate

Harvard College of Commerce and Sciences, Peshawar Road, Rawalpindi

Apr 2020 - Aug 2022

Matriculation

Quaid-e-Azam International School, Rawalpindi

Apr 2018 - Mar 2020

SKILLS

Python Programming, C++ Programming, HTML5, CSS3, JavaScript (ES6+), SQL (MySQL/Postgres), Front End Development, Graphic Design, Leadership, Effective Communication, Critical Thinking

LANGUAGES

Urdu - Advanced

CERTIFICATIONS AND LICENSES

- Python Programming Intern at Digital Empowerment Network.
- Udemy Certificate of Python for Machine Learning with real world projects.
- HackerRank Certificate of Basic Logic Building.
- Intro to Machine Learning Kaggle Certification.
- Certificate of Contribution from MLSA (Microsoft Learn Student Ambassador).
- Certificate of Participation from Google Developer Club.
